

Table A shows PVC Pipes of different gauges, which can be selected for surface or underground electrical, cable ducting.

## Table A Rigid PVC Pipes for underground ducts

### Metric System

Outside Diameter (mm)	20	25	32	40	50	75	110	140	160
Light Medium Duty Wall Thickness (mm)	1.5	1.5	1.8	1.8	1.8	1.8	2.2	2.8	3.2
Heavy Duty Wall Thickness (mm)	1.8	1.8	2	2	2	2.2	3.2	4.1	4.7

### Imperial System

Outside Diameter	1 1/4"	1 1/2"	2"	3"	4"	6"			
Medium Duty Wall Thickness (mm)	2.0	2.0	2.0	2.0	2.2	3.3			
Heavy Duty Wall Thickness (mm)	2.2	2.5	2.5	2.9	3.4	4.5			

For consideration of other pipe sizes, wall thicknesses and bends or fittings, the customer is advised to consult our Technical Personnel.

### Domestic Flexible Corrugated Electrical Cable Ducts (Conduits)

Interplast flexible electrical conduits provide for easy ducting of House Electrical Cables. These are usually produced in 20mm and 25mm diameter sizes in black colour and are supplied in rolls of 35m and 50m lengths.
